PROFILE

Software Engineer (Fresher) with hands-on experience in Java, Python, HTML, CSS, JavaScript, and React.js through real-time projects. Strong foundation in computer science fundamentals and problem-solving, with the ability to learn quickly and contribute effectively.

EDUCATION

Bachelor of Engineering- Computer Science Engineering

K L N College of Engineering

CGPA-8.3/10 until 6th semester

11/2022 – 05/2026

Tamil Nadu, India

PROFESSIONAL EXPERIENCE

Frontend Intern

Present

Rmv Technologies

- Developed responsive web pages using **HTML, CSS, and JavaScript**
- Built and maintained UI components using **React.js**
- Collaborated on real-time projects and improved frontend performance
- Gained hands-on experience in modern web development practices

PROJECTS

Image Based Classification of Fruit Ripening Stages

Developed a CNN + YOLOv8 model to classify fruit ripeness with image preprocessing for improved accuracy and real-time detection.

Tools and Usage: Python, Google Colab, TensorFlow/PyTorch, YOLOv8, OpenCV, NumPy, Pandas for preprocessing, model training, and real-time classification.

Market Basket Analysis

Implemented Market Basket Analysis using the Apriori algorithm to identify frequent product combinations and generate association rules for retail optimization. 

Tools and Usage: Python, Pandas, NumPy, Mlxtend, Jupyter Notebook for data cleaning, Apriori modeling, and rule generation.

SKILLS

Frontend: — HTML, CSS, JavaScript, React.js

Programming: — Python, Java

Database: — MySQL

Tools/Libraries: — VS Code, GitHub

Others: — Object-Oriented Programming (OOP), Debugging, SDLC,

COURSES

Java course : From basic to advance

Udemy

Cyber security Course by Google

Coursera
